Customers Rave About Databricks

**Hotels.com**

“Agility and flexibility were critical for us to successfully support our data science and engineering goals. Moving to Databricks’ Unified Analytics Platform to run 100% of our workflows has been a huge boost for our business and our customers.”

- Matt Fryer, VP, Chief Data Officer
  Hotels.com

**Rue Gilt Groupe**

“Databricks has enabled our data science team to work more collaboratively, empowering them to easily integrate and modify the models in a distributed fashion much faster.”

- Benjamin Wilson, Lead Data Scientist
  Rue Gilt Group

**Overstock.com**

“Working in Databricks is like getting a seat in first class. It’s just the way flying (or data science-ing) should be.”

- Mary Clair Thompson, Data Scientist
  Overstock.com

**People.ai**

“We were looking for a leader to partner with on analytics infrastructure. With Databricks we can focus our time and resources on innovating new solutions that drive our business.”

- John Wulf, Principal Engineer
  People.ai
